MEMORANDUM FOR THE RECORD

Morning Meeting of 9 April 1968

ADD/I reported that CIA will comply with State's request for reporting on foreign comments concerning the U. S. presidential campaign by providing a biweekly report.

ADD/I advised that the preliminary assessment of the last KH-4 mission indicates, among other things, a helicopter carrier in the Black Sea and an additional long-range SAM site.

Godfrey advised that today's briefing of General Maxwell Taylor on North Vietnamese infiltration will be borne mainly by CIA, since the DIA briefer is on duty in Baltimore. (See Action 1)

DD/P drew attention to two reports [redacted] relevant to peace negotiations and advised that they are receiving appropriate dissemination.

DDCI advised that his and the ADD/I's best judgment is that CIA should not participate in the Rand Corporation symposium.

ACTIONS:

1. The Director asked the ADD/I to check on the status of the proposed letter to General Maxwell Taylor concerning the Defense/CIA effort to establish definitive order of battle figures in Vietnam.
